

YERA

glassware

India's best since 1958

ABOUT US

Founded in 1907, Alembic is amongst one of the oldest industrial houses in India. Alembic group is acknowledged for its pioneering role in the development of diverse industrial verticals over the past 115 years. The flagship company of the Alembic group is the oldest pharmaceuticals company in India today.

The glass business of the Alembic group was set as a result of historical necessity. India's entire requirement of glass bottles was being met by imports from Europe. The Second World War caused an abrupt break in the supply chain. As a result, Alembic had no bottles to package its pharmaceutical products in and the entire pharmaceuticals business was in jeopardy.

The supply chain disruption from Europe led to experiments within Alembic, to manufacture glass bottles in 1943. After getting it right, Alembic Glass Industries Ltd. was incorporated as a separate company in 1944. The name of the company was changed to Shreno Ltd. in 2005 to differentiate its identity from the groups pharmaceuticals business.

YERA Brand was introduced in 1958 and today one of largest manufacturer of kitchenware and tableware glassware brand in India.

YERA

glassware

India's best since 1958
